

Formica® Collection i fickformat

Nya färger, nya mönster, nya ytor, nya möjligheter. Formica Group satsar på nytänkande och differentiering.

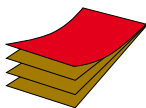

Kollektionen präglas av mångsidighet och exklusivitet. Moderna färger, unika ytor, ett heltäckande sortiment, fyllt av inspiration.

Formica® Collection finns nu nära till hands. En praktisk, relevant resurs när du vill skapa miljöer med det där lilla extra. Titta själv.

Formica Group strävar efter att bedriva verksamhet som bygger på långsiktigt och hållbart miljöarbete. Vi strävar efter att leva upp till högt ställda etiska krav i vårt arbete med att skydda viktiga resurser för framtida behov.

Formica® Laminate

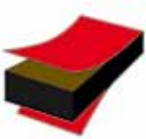

THE ORIGINAL HIGH PRESSURE LAMINATE by FORMICA GROUP

Formica® högtryckslaminat (HPL) tillverkas genom att flera skikt av impregnerat papper pressas samman under högt tryck, så att ett skivmaterial erhålls med slitstark, hållbar och hygienisk yta. Formica® i serierna Colors, Patterns och Woods är i standardutförande ett postformbart högtryckslaminat (HGP). På begäran kan även HPL med brandhämmande egenskaper (klass VFP och HGF) erhållas.

Formica® Compact

STRUCTURAL LAMINATES by FORMICA GROUP

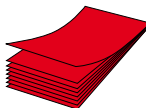

Formica® Compact är ett homogent laminat med tjocklek mellan 2 och 20 mm, tillverkat av flera skikt impregnerade kraftpapper. Detta laminat har dekoryta på båda sidorna och är idealiskt för användning i våtutrymme, omklädningsrum, som väggbeklädnad eller i laboratorieinredning. Det lämpar sig särskilt för utrymmen med hög luftfuktighet och klarar mekanisk åverkan. Densiteten är 14 kg/m² (vid tjockleken 10 mm), vilket gör Compact till ett exceptionellt starkt och slagtåligt material. Det är också stabilt och behöver inte monteras på någon bakomliggande skiva om tjockleken överstiger 6 mm. Formica® Compact är CE-märkt och uppfyller EU-kraven på konsument-, miljö- och hälsoskydd.

ColorCore®

by FORMICA GROUP

SOLID COLOUR LAMINATES

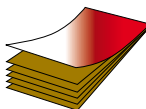

ColorCore® från Formica Group är ett spännande och dramatiskt ytmaterial, 1,3 mm tjockt, med samma goda egenskaper som övriga Formica® laminat, men med helt genomfärgad kärna. Homogen färg gör att den mörka linje som ibland syns i laminatets kanter försvinner, samtidigt som dekorativa effekter kan tas fram genom gravyr och blåstring. ColorCore® med ytan Matte 58 ökar slitstyrkan och minskar synligheten av repor. ColorCore® är till exempel idealiskt för butiksinterior.

ColorCore finns i utvalda dekorer från serien Formica Colors. På grund av ColorCores speciella egenskaper och uppbyggnad kan det ibland vara svårt att uppnå exakt matchning mellan ColorCore och Formica Colors. Vi rekommenderar att materialprover jämförs innan föreskrift eller tillverkning.

PREMIUM GLOSS FINISH by FORMICA GROUP

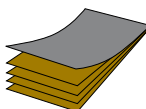

AR Plus® High Gloss Colors och Woods är robusta och extra slitstarka högblanka laminat, med dubbel hållbarhet jämfört med vanliga högblanka laminat. AR Plus bygger på en specialteknik som ger en blank yta med hög motståndskraft mot olika typer av nötning, vilket förlänger materialets livscykel. AR Plus högblanka laminat är postformbara och 1,2 mm tjocka. Ytstrukturen gör att radien inte bör understiga 15 mm. På begäran kan även brandhämmande AR Plus-laminat (FAR-klass) erhållas.

DecoMetal®

by FORMICA GROUP

METAL LAMINATES

DecoMetal® från Formica Group är ett högtryckslaminat som består av metallfolie ovanpå en laminatkärna, ett mycket anslående material med hög hållfasthet, och som har låg vikt jämfört med motsvarande metallplåt. Ytstrukturer och mönster har skapats på vissa av metallaminaten, för extraordinära effekter.

Det finns ett brett sortiment av attraktiva färger, mönster och ytstrukturer. Den nominella tjockleken beror på valet av metall och ytstruktur.

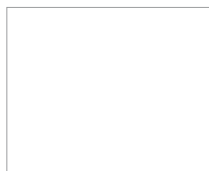

DecoMetal® är laminat som uppfyller kraven enligt EN438:2005 Grade MTF och har brandklassats enligt IMO/MED och USCG. Närmare detaljer lämnas på begäran. MTF och MTP kvaliteterna är rekommenderade för vertikal användning.

Premium Patterns

Mode är det mest kreativa man kan uppnå när det handlar om "färdigtillverkade" mönster. De tre skalorna ger olika perspektiv, från diskreta till djärva geometriska former.

Positiva och negativa versioner gör urvalet ännu större.

Den tidlösa punktgrafiken har uppdaterats till något som känns helt nytt. Välj från sortimentet ovan eller skapa egna kombinationer med valfri enfärgad Formica® dekor och prickar i NCS, RAL eller PMS.

Valet av yta är viktigt för såväl funktion som estetik.
 Följande ytor är idealiska för vertikala och horisontella
 applikationer med lätt slitage där laminatet inte kommer i
 kontakt med objekt som kan slita på ytan:
 Rigato (RT), Gloss (90), Naturelle (NT), NDF (11),
 Softmat (73).

CGS tillgängliga tjocklekar:

Enkelsidigt kompaktlaminat: 2, 2.5, 3 mm

Dubbelsidigt kompaktlaminat: 4, 6, 8, 10, 12, 13, 16, 18, 20 mm

Valet av yta är viktigt för såväl funktion som estetik.
Följande ytor är idealiska för vertikala och horisontella
applikationer med lätt slitage där laminatet inte kommer i
kontakt med objekt som kan slita på ytan:
Rigato (RT), Gloss (90), Naturelle (NT), NDF (11),
Softmat (73).

Kvaliteter

Formica Collection omfattar följande kvaliteter av dekorlaminat, med respektive specifika egenskaper.

Klassindelningen motsvarar EN 438:2005.

Formica® Laminat

Kvalitet HPL/EN 438-3 HGP	Högtryckslaminat, horisontellt, generell användbarhet, postformbart. (Nominell tjocklek 0,7 mm).
Kvalitet HPL/EN 438-3 HGS	Högtryckslaminat, horisontellt, generell användbarhet, standard. (Nominell tjocklek 0,7 mm).
Kvalitet HPL/EN 438-3 VFP	Högtryckslaminat, vertikalt, brandhämmande, postformbart. (Nominell tjocklek 0,7 mm).

AR Plus® by Formica Group

Kvalitet PAR	Högtryckslaminat, slitstarkt, högblankt, postformbart.
Kvalitet FAR	Högtryckslaminat, brandhämmande, högblankt, standard.

PAR och FAR används inte i klassificeringssystemet EN 438.

ColorCore® by Formica Group

Kvalitet HPL/EN 438-9 BTS	Tunt högtryckslaminat, genomfärgat, standard.
----------------------------------	---

Formica® Compact

Kvalitet HPL/EN 438-4 CGS	Kompakt högtryckslaminat, kompakt, generell användbarhet, standard. EN 13501 Euroclass C-s1,d0
Kvalitet HPL/EN 438-4 CGF	Högtryckslaminat, kompakt, generell användbarhet, brandhämmande. EN 13501 Euroclass ≥ 6 mm B-s1,d0 < 6 mm B-s2,d0

DecoMetal® by Formica Group

Kvalitet HPL/EN 438-8 MTF	Tunt högtryckslaminat, metallbelagt, brandhämmande.
Kvalitet HPL/EN 438-8 MTP	Tunt högtryckslaminat, metallbelagt, postformbart.

DecoMetal® är laminat som uppfyller kraven enligt EN438:2005 Grade MTF och har brandklassats enligt IMO/MED och USCG. Närmare detaljer lämnas på begäran. MTF och MTP kvalitéerna är rekommenderade för vertikal användning.

ISO 14001:2004

IMO-MED

Vi förbehåller oss rätten att ändra specifikationer utan föregående meddelande. De mönster som avbildas i denna trycksak har gjorts så verklighetstrogna som trycktekniken medger. Vi rekommenderar dock användaren att beställa materialprover innan föreskrifter fastställs, tillverkning beställs eller installation påbörjas.

Den information som lämnas i den här katalogen var korrekt vid tidpunkten för tryckningen. Eftersom vi har som policy att bedriva fortlöpande produktutveckling kan dock produktspecifikationerna ändras vid ett senare tillfälle.

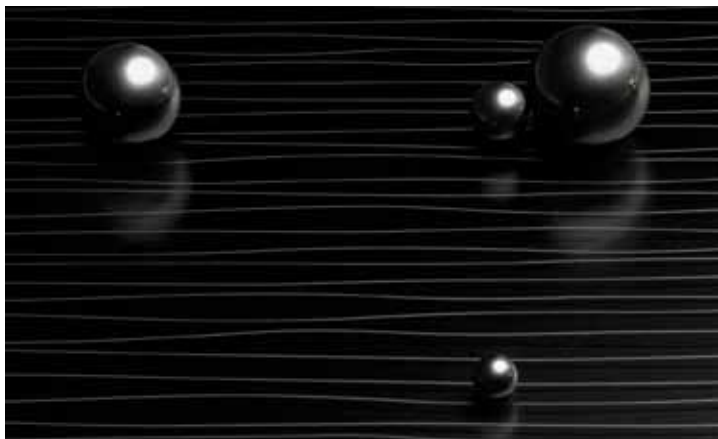

Formica Group strävar efter att bedriva verksamhet som bygger på långsiktigt och hållbart miljöarbete. Vi strävar efter att leva upp till högt ställda etiska krav i vårt arbete med att skydda viktiga resurser för framtida behov.

Formica, Formica Anvil Device, ColorCore, DecoMetal och AR Plus är registrerade varumärken som tillhör The Diller Corporation.
